Proposed Timeline- Healthcare Project

- **Planning -** Taking up a problem and defining it. (DONE)
- **Preliminary Analysis (Feasibility) -** Understanding the current system, proposing cost and benefits, comparing existing systems
- **Software Requirement Specifications -** Proposing our system requirements, conducting surveys to know what people actually want, preparing Use-Cases
- **Requirement & Design Analysis -** Rapid throw-away prototyping using diagrams and graphs

- **First Report Submission (By 1st February,2015)**

- **Requirement Documentation & Validation-** Documenting the requirements to lay the working base.

- **Second Report Submission (By 15th February,2015)**

- **Systems Design -** Describing desired features and operations in detail, including screen layouts, business rules, process diagrams, pseudo code and other documentation.(For developers)
- **Development -** Developing an offline web portal and checking for database connectivity and authentication of web services locally.

- **Third Report Submission (By 1st May,2015)**

- **Understanding the working environment of a Cloud (Preferably AWS)**

END OF PHASE 1
